

Dr. Justin Chelette, OD, FAAO, COEP

Residency-trained developmental optometrist. Speaker, educator, and consultant on binocular vision, concussion, accommodation, and vision therapy.

ABOUT

Dr. Chelette lectures to optometrists, students, parents, and teachers on how the visual system supports reading, attention, balance, and recovery after injury. He has taught at two optometry schools and lectured nationally and internationally, including at the Optometria conference in Kraków, Poland. He is a Certified Optometric Education Provider (COEP), Vice President of the Southwest Congress of Optometry, and host of the See It Differently podcast.

CLINICAL LECTURES (ONE-HOUR CE OR ADAPTED TO YOUR EVENT)

- Concussion and Vision
- Accommodation, Clinically
- 20/20 Is Not Functional Vision
- ADHD or a Vision Problem?
- Oculomotor Causes of Skipping Lines
- Letter Reversals and Developmental Norms
- The Logic of Vision Therapy: Control, Accuracy, Repeatability, Sensitivity
- When Vision Therapy Is Not the Right Recommendation

COMMUNITY TALKS (PARENTS, TEACHERS, SCHOOLS)

- Beyond 20/20: Children's Vision
- When Focus Isn't the Problem: The Visual Side of Attention

CONSULTING

Guidance for optometrists adding vision therapy to a practice: referral relationships, describing the service, training a first therapist, and fitting it into an existing schedule.
